Profile Summary

A results-oriented Full-Stack Developer with a demonstrated track record of constructing scalable web applications that yield tangible outcomes. I specialize in creating solutions focused on users, always ensuring quality and innovation. With experience in developing seamless workflows, optimizing performance, and collaborating effectively with cross-functional teams, I excel at transforming obstacles into opportunities. Committed to continuous professional development, I am always seeking innovative approaches and measurable value to enhance every project I undertake.

Skills Highlights

| | |
|---|---|
| Languages JavaScript, C++, Python, Swift | Database SQL, MongoDB, PostgreSQL, Atlas |
| Core Skills Full-Stack Development, API Integration, Cloud Computing, Agile Methodologies, Version Control, Debugging, Responsive Design | Cloud Platforms AWS (EC2, S3, Lambda), Azure |
| Development HTML, CSS, React, .NET | Tools Agile (Scrum), Git, Jest, Flutter |
| | DevOps CI/CD Pipelines, Docker, Kubernetes |
| | Soft Skills Team Collaboration, Problem Solving, Time Management |

Professional Experience

Freelancer

May 2024 – Present

UpWork

As a freelancer, I collaborated with clients to bring their ideas to life, working on projects such as web applications, e-commerce platforms, and mobile apps. My role involved understanding client requirements, crafting tailored solutions, and delivering functional and efficient systems:

- Developed full-stack web applications and mobile apps, including an e-commerce platform with secure payment integration and a real-time task management tool.
- Built secure back-end APIs for seamless data flow and user authentication while resolving bugs to enhance performance.
- Deployed scalable solutions using cloud services to handle large traffic volumes, ensuring cost-effective operations.
- Delivered user-friendly applications and created comprehensive documentation for smooth handovers and maintenance.

Education

Computer Programming and Analysis (Advanced Diploma)

May 2022 – Dec 2024

Seneca Polytechnic — Toronto, ON

- Relevant Coursework: Data Structures and Algorithms, Web Development, Cloud Computing

Certifications

- IBM Certificates in Database Management
- FreeCodeCamp: Responsive Web Design Certification
- FreeCodeCamp: JavaScript Algorithms and Data Structures (Beta)
- AWS Certified Solutions Architect – Associate

Projects

Personal Portfolio Website

2024

- Developed a responsive portfolio website using Next.js and React Motion to showcase skills and projects.
- Deployed the site via Vercel, ensuring fast performance and seamless navigation.
- Incorporated modern design principles for a professional and visually appealing online presence.

Green Mobility

2024

- Designed a platform for electric vehicle rentals, emphasizing affordability and customer satisfaction.
- Implemented subscription-based services, including vehicle delivery and expert advice.
- Built promotional modules for showcasing upcoming EVs, monetizing platform traffic.

Clubhub

2024

- Created a centralized hub for club management and event planning.
- Enhanced user engagement through interactive dashboards and real-time updates.
- Integrated payment gateways for seamless financial transactions.
